

### **The Giving Game-**

A sheet of construction paper of each color (red, blue, green, yellow, pink) with lines drawn on it to divide the paper into 8 squares are placed in a circle. In the center of the circle is a bag. Inside the bag are small squares of paper that are the same colors as the sheets in the circle. Taking turns participants draw one square of paper out of the box and give it to the person next to them. The person places the colored square in one of their eight squares on the large mat in front of them that matches the color. When one mat is full the game is complete.
