Our story today is from our Bible (*show Bible*), our book that tells the stories of God and God's people, of Jesus (*show Jesus doll*), God's son, and of how much God loves us (*place hands over heart*).

Today's story comes from the very first page of the Bible and talks how God's creation.

God created night and day on the first day. And then God made heaven and earth on the second day. And then on the third day, God made these:

Sea (*put out bowls on water on the ground for all to see*)

and

Land (*put out bowls of dirt on the ground for all to see*)

God separated the water and the land and made one sea here (*move a bowl of water to one side*) and another sea here (*move another bowl*) and another big sea, here. (*move the third bowl of water.*)

Between the seas, there were areas of land. (*place the bowls of dirt between the bowls of water.*)

And then, God started creating things to go in the sea and to grow on the land.

(*motion to the wall mural created in the Gathering*)

Let's see what God created:

(*using the creation flags prepared ahead of time, invite the children to determine whether each flag should be placed on the land or in the sea. When finished, say*)

God took a look at all that God had done on this third day- making the land and the sea, making things to swim in the sea and to grow on the land and... what do you think that God did?

He said, "It is good."

This is the time of year when we say thank you to God for all of the beautiful growing things on our land and in our seas. Thank you, God.

Amen. *Continue by explaining activities*
